

GB-410 SERIES™, GB-414 SERIES™, GB-425 SERIES™

EXTERNAL GEAR PUMPS FOR GREENER ENERGY SOLUTIONS

- Carbon capture dehydration in biofuel refinement, hydrogen production, oil & gas processing, and energy generation
- Renewable natural gas processing, landfill gas processing, carbon sequestering
- Blue & green fuel transfer, processing, and pipeline injection

ENVIRONMENTALLY FRIENDLY FEATURES & BENEFITS

ELECTRIC MOTOR DRIVEN

- NO wasting of motive gas
- NO flaring (CO₂) or venting (Methane) emission contributions
- Volumetric & mechanically efficient power solutions

NO VIBRATION – SMOOTH, NON-PULSATING FLOW

- NO risk of vibration cracking piping or causing leakage
- NO pulsation dampeners needed

ROBUST MECHANICAL SEAL

- Reduce chance of product leakage or spills
- NO leaking packed shaft seals like reciprocating pumps
- NO flimsy lip seals prone to product leakage

GB SERIES™ HIGH-PRESSURE PUMPS ARE IDEAL FOR:

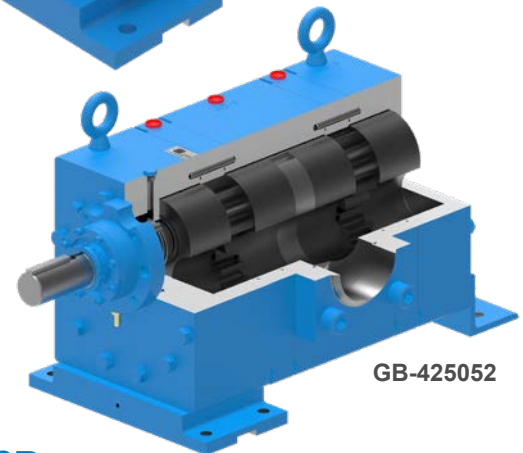

- Renewable energy processing
- Upstream oil & gas processing
- Natural gas dehydration
- Carbon capture dehydration
- Hydrogen & syngas processing & production
- Renewable natural gas dehydration & processing

GB-41026

GB-41430

GB-425052

Viking Pump® has partnered with [OneTreePlanted.org](https://www.onetreeplanted.org) to plant 10,000 trees annually. Every tree planted makes a positive impact for nature, wildlife and people.

One Tree Planted is a 501(c)(3) nonprofit dedicated to global reforestation. They plant trees to restore nature and biodiversity. They also raise awareness about the importance of trees and offer businesses like ours a simple sustainability solution.

PERFORMANCE

Pump Model	Port Size	Nominal Flow at Maximum Pressure on 4 cPs Liquid		Max Continuous Pressure	Max Recommended Temperature	Approximate Shipping Weight
Ductile Iron Externals	Inch	GPM	BPD	PSI	Deg. F	Lbs.

THE VIKING PUMP ADVANTAGE

- With over 110 years of experience providing positive displacement pumping solutions, Viking Pump has a rich, lengthy history of providing engineered solutions for tough applications
- Dedicated sales and field support specialists are supported by a team of customer service representatives and engineers
- Knowledgeable team of application engineers available to help with product selection and technical support
- USA based company with vertically integrated manufacturing facility

ALL PUMPS FACTORY TESTED

State of the art testing equipment used to confirm performance prior to all shipments

TEST LAB

Our world-class lab gives Viking Pump the ability to test our pump designs across a range of relevant variables
